### TILLMAN THE TERROR

He Is Laying Down the Law to the Democrats.

### SHERMAN DENUNCIATION

Is The American Issue Against British Toryism.

WASHINGTON, May 2.—The debate in the senate Friday was of a dramatic and sensational character, recalling the famous Ingalls-Voorhees contest of some years ago. Senator Tillman, of South Carolina, again brought his unique personality into the debate, his speech being the first of any length since his memorable sudden effort, attacking public officials high and low. While he spoke the silver pitcher recently presented to him in the West was conspicuously displayed on his scarf. The senator used blunt words, characteristic of his utterances, arraigning the president and cabinet officers with unflinching criticism and personal invective.

He addressed himself personally to Senators Hill and Sherman and drew from the former sharp rejoinders. The Sherman declined to be brought into a controversy with the South Carolina senator.

Hill followed Tillman, answering the latter point by point. The New York senator referred to the coming democratic convention, declaring that there would be no split, but that the democracy would recognize the will of the majority and keep the party intact, despite the threats of the South Carolina senator to leave the party. Hill spoke freely and frankly of his difference with the officers of administration.

Tillman took the floor during the debate and said he had found, during his brief experience here, that there were some strange things happening in the navy department and other departments. "It seems to be suffering from too much red tape, too much bureaucracy," said he. He then branched off to the bond issue and said he denied the right of the president to issue bonds for meeting current expenses. There was no law preventing the president to do so, he said, and he would not be doing so. "I am not a doctor, but I can tell you that the people by doing so are making a mistake," he said. "I am not a doctor, but I can tell you that the people by doing so are making a mistake," he said.

### A POPULIST CANDIDATE

Denies That He Claims The Goldbug Support.

WILLARD, May 1, 1896.  
EDITOR JOURNAL:—I notice in the DAILY JOURNAL of last Wednesday a communication over the signature of "countryman" in which, among other things he says, that "King Hibbard claims that he will get all the goldbug votes in Salem as the Salem goldbugs say they prefer him to a silver Republican like Barkley."

We wish to say that we have never made any such claim. We trust however that the entire Peoples party ticket will command the respect of the straight out single gold standard men, because of the decided and unequivocal stand its candidates have taken in favor of the free coinage of silver.

The Oregonian has well said that "the Peoples party is the only party that has had the courage to state its position fairly and without equivocations on the silver question."

Again your correspondent says "the Populist politicians are trying hard to put a party collar on all their people and make them swear to support the whole legislative ticket."

We think it is pretty generally known that the Populists of Marion county wear no party collar and that they have sense enough to vote for men for the legislature who, if elected, will regard the rights of the tax payers of Marion county and of the state of Oregon. "Countryman" should therefore inform himself better before he starts out buying cattle again.

K. L. HIBBARD.

### SOUND MONEY MAN.

Rumor of Fusion Against Tongue in This District.

PORTLAND, May 2. — [Special]—Efforts have been made for some time to secure an independent bimetallic Republican who would make the race in the first district for congress.

It is reported here today that the managers of the movement have decided to ask Hon. J. B. Waldo, of Marion county, to stand. He is the largest farmer in Macleay precinct.

It is well known here that it is the desire of ex-Governor Penney that both the Democratic and Populist nominees withdraw. If a satisfactory man who is sound on the money question, a clean man and a man for whom the silver Republicans would vote, could be put up. This offer has been made to Mr. Waldo who has a law office here in the winter but in summer lives on his farm. Mr. Waldo is one of the best informed bimetallics in Oregon. It is thought he will accept.

### Hirsch's Denial.

PORTLAND, May 2.—Referring to the charge of the Oregonian that the state central committee favors Mitchell men on the legislature:

"There is no foundation whatever for the statement or insinuations in this article. The state central committee is doing its full duty, and will continue to do so to the end of this campaign with absolute loyalty to the Republican party in every portion of the state, and will not be swayed from the straight path which party fealty demands by any statement made, however false or malicious."

SOLOMON HIRSCH, Chairman State Central Committee.

### Europe's Stock of Gold.

Since 1890 the gold in Europe banks has increased by \$623,200,000. Of this, says the Economist European, the Imperial bank of Russia has gained \$185,800,000, the Bank of France \$167,400,000, the Bank of England \$111,000,000, the Austro-Hungarian bank \$79,800,000, and the Imperial bank of Germany \$39,000,000. The gold comes from the American monetary circulation and from the production of the gold mines. At the end of 1895 the Bank of France and the Imperial bank of Russia between them held \$776,600,000, in gold, a little more than half the stock of gold in the European banks, and this does not include the gold in the Russian treasury, which is estimated at \$510,400,000. The gold in Germany, Austria-Hungary and Italy amounts to \$330,000,000, and that in the Bank of England to \$590,800,000.

ALL CYCLISTS—Will be interested in the lecture to be given by Rev. E. P. Hill, of Portland, at the Presbyterian church Wednesday evening. Subject of lecture, "Cycling Through England With a Kodak." Admission, adults, 25c; children, 15c.

HEAVY RAIN.—Three-fourths of an inch of rain fell the past 24 hours, an unusually heavy rainfall for Oregon.

### GUERRILLAS AT WORK

Spanish Battalion Terrorizing Cuban Inhabitants.

### GENL. WEYLER WEAKENS

He Admits That the Insurgents Are Increasing.

NEW YORK, May 2.—The World's Havana special says the Spanish battalion of guerrillas under Dominian, the butcher of Juan to Juada, is terrorizing the inhabitants of Congo dos Coninos, San Luis and Palma Torina. Several have been killed.

INSURGENTS INCREASING. MADRID, May 2.—The Herald publishes an interview with Captain-General Weyler, who is quoted as saying that the action of the congress of the United States in regard to recognizing the belligerency of the Cuban insurgents, has served to increase their number; and, in consequence, it will be necessary to postpone the inauguration of political reforms until the rebellion is crushed.

General Weyler is also said to have admitted that the financial situation of Cuba is serious, but now improving.

### Gone to Plead for Hammond.

WASHINGTON, May 2.—F. W. Jewell and wife, of Johannesburg, and Attorney Tresslow, accompanied by Senator White, called on the president today regarding the case of John Hays Hammond.

### Kansas City for McKinley.

KANSAS CITY, May 2.—The Republican county convention, to select 42 delegates to the state convention convened here today. Major Wm. Warner presented a resolution endorsing Major Wm. McKinley as the convention's unanimous choice for a presidential candidate.

WASHINGTON, May 2.—The Chandler amendment to the naval appropriation bill, providing for twenty torpedo boats, was defeated by the senate today, by 23 to 39.

### A CANDIDATE DECLINES.

He Files His Notice of Declination, Giving the Reason Therefor.

I. H. Veatch, the People's party candidate for sheriff, has withdrawn from the race and will in all probability throw his strength to Horace Hampton, the Democratic nominee. The following notice of withdrawal has been filed with the county clerk:

"I hereby give notice that I respectfully decline the nomination given me by the People's party of Lane county, Oregon, for sheriff of said county made April 24, 1896, my acceptance of the same having been filed with the county clerk of said county April 25, 1896.

"My reason for declining said nomination is that the interests of the people require the sheriff's office to be conducted according to the law regarding emoluments, and this result cannot be secured by running candidates from two minority parties against the candidate of a strong plurality party."

Eugene, Oregon, this 30th day of April, A. D., 1896.

I. H. VEATCH.

Subscribed and sworn to before me this 30th day of April, 1896.

J. F. AMIS,

Notary Public.

Mr. Veatch says Mr. Hampton is as good a free silver man as himself, and, if elected, he is satisfied he will keep the expenses of the office within the limits prescribed by law.—Eugene Guard.

### Tongue at McMinnville.

The Transcript says: "Judge Magers introduced the speaker, who for two hours and ten minutes held the audience spellbound as he discussed candidly the two main questions confronting the people—tariff and finance, the former of which he said was the real question, as it struck directly at the pocket of every producer and consumer in the land, while the question of finance (free silver) that is being so much discussed benefits only a few mine owners. His argument on the tariff question was parallel with the discussion of the question by all Republican orators, but very plain, logical and easily to be understood.

On the money question he made no equivocation as to his standing; had been called a "straddle-bug" because of the position he took, but was willing that the epithet should be applied to him as long as he stood on the platform that proposes to make every dollar as another and keep it there. He presented facts and figures to prove that since the so-called demonization of silver in 1873 there has been a steady increase in the coinage of silver, every dollar of which is as good as gold for the payment of debts of any amount, except where a contract exists to the contrary.

### In Old Yamhill.

The Transcript says today: Well, what do you think of things politically in Yamhill, now? Transcript is no prophet; it has not known much of the political situation heretofore; and yet its forecasts have been as a general thing, correct, where fair methods have entered into the early part of the campaign. But today we are considerably like a vessel at sea without a rudder as regards the situation. But two tickets are in the field—the Republican and the Union bimetallic. The latter is composed of Populists, Democrats and free silver Republicans, and the situation simmers right down to what is known in mathematical parlance as an "unknown quantity."

If all Democrats were to vote with the bimetallics, the result would be easily foretold; but numerous Democrats are openly vowing they propose to vote with the Republicans, while many of both parties are quietly "sawing wood," intending to vote as the notion seizes them on election day. Hence we say the result would not be a safe proposition to gamble on. Ordinarily a canvass can be made and the result figured pretty closely in advance. If there are any political Solomon in Yamhill they will confer a favor on about 20,000 people by figuring out the present political situation and giving a proper solution of it. We give it up.

### Why It Was So.

It is perfectly plain now, that if Hermann had been nominated at Albany the Oregonian, would have favored an independent sound money man, as it is doing in the case of Mr. Ellis, this action also shows where the opposition came from, the anti-silver delegates. The Oregonian is now bent on another plan of rule of ruin to the Republican party. It is not the first time neither, it elected Penney over Cornelius, Webb over Marston, for governor and treasurer.—Newport News.

### METHODIST CORNER

On Heaven in Session at Cleveland.

### A CORNER ON BISCUIT

Bullied on the Chicago Board of Trade.

CLEVELAND, Ohio, May 2.—Bishop Foster presided over the general Methodist Episcopal conference today. A resolution for the appointment of a sergeant-at-arms to maintain order was adopted.

P. H. Swift of Chicago, desired that a committee on the Epworth League be appointed to consist of one member from each annual conference. It was passed against opposition. Dr. Neeley moved the appointment of a committee of eighteen on constitution, fifteen to be by districts and three at large. This is one of the most important subjects to come before the conference, and the broaching of the question caused a flurry. The motion was carried.

### CORNER ON BISCUIT.

CHICAGO, May 2.—There was a bull panic on the Chicago stock exchange today. It was a mad rush for New York biscuit stock.

During the first 10 minutes over 7000 shares changed hands. Yesterday New York biscuit broke the record for the number of shares traded in, the number being 185,000. It opened at 93½ and advanced to 101½ at the close. Today it started at 104 with a sale of 500 shares. Then followed the wildest scene in the history of the exchange. Inside of 10 minutes the stock had gone up to 106½.

### Great Sportsman Dead.

CHICAGO, May 2.—News was received today of the death in Philadelphia, of William H. Doble, the oldest driver of trotters in the world, and father of the family of reismen, chief among whom is Bud Doble, at the age of 80. He was the first man to drive a trotter better than Dexter's record.

### Bankruptcy Law.

### AT WOODBURN.

Col. F. V. Drake Entertains a Large

Crowd on Bimetallism. Friday evening Col. Frank V. Drake, of Portland, entertained a house, crowded to standing room, with a discussion of independent bimetalism from a non-partisan standpoint.

Col. Drake presented the subject in a dispassionate manner, more argumentative than eloquent, but winning applause repeatedly on the merit of his propositions.

E. P. Morcom introduced the speaker, and at the close a vote of thanks was tendered Mr. Drake. A number of converts to bimetalism were made. The single standard men are greatly stirred up over Drake's arraignment of the gold monometallic idea and say they will bring a speaker to plead their system.

### Police Court.

Alex Sheppard, who is greatly fascinated with the gambling table, and who was arrested a few days since for vagrancy, was brought before City Recorder Edes this morning. He received a sentence of ten days but sentence was suspended pending the behavior of the man. Sheppard was advised by Chief Dille that if found hanging around saloons or other such places, he would be arrested and be obliged to serve out his time. Sheppard has an aged mother to whom he should devote his attention in assisting to support her rather than evolve into an inveterate gambler.

An address by Attorney Butt was given before the literary society.

### A PAINFUL MISHAP.—Friday evening,

while J. W. Fowler, the enterprising State street barber, was splitting a little stove wood, a stick was thrown violently upwards, striking Mr. Fowler on the right cheek bone, scarcely an inch from the eye, badly bruising that portion of his usually smiling countenance. It looks rather suspicious, but as no one questions the veracity of Mr. Fowler, the statement made by that gentleman is accepted. He comforts himself, however, with the expression, "you ought to see the other fellow, though." We suppose he refers to the axe.

### STREETS FULL.—Never have so

many men stood about idly on the streets as this Saturday. They are all well dressed, happy, contented, smiling and prosperous. Some of their coats are not cut quite the latest style, and they are not able to pay two-bits to have the red clay shined off their stogies. But they are good American citizens just the same.

### MACHINERY ARRIVES.—The first

two of ten cars of machinery—looms and bennies—for the new woolen mills, arrived this morning from Laurence, Mass. The weight was 50,000 pounds and freight about \$1.50 per hundred. The machinery for the old mills required only two cars.
